RE: Pre-Hospital Care Report (PCR) Inventory

The Hudson Valley Regional EMS office received notification that the NYS DOH Bureau of EMS does not have blank PCR forms in its inventory. The Bureau is working to resolve this problem, but no immediate resolution is anticipated.

In the interim, PCR proof files have been released and are available to EMS agencies interested in printing PCRs for their use. Any agency interested in receiving the proof files should contact the Hudson Valley Regional EMS office.

As a last resort, you may photocopy PCR forms. Please make copies of the yellow research page as this will provide us with the best, most legible copy possible. If your agency decides to photocopy PCR forms, please be certain the copies do not include the PCR number.

Should your service be interested in pursuing an electronic PCR data reporting solution, please contact the Hudson Valley Regional EMS office for additional information.

Please contact the Hudson Valley Regional EMS office with any questions in this regard.
